

SONALKUMAR SINGH

Full Stack Developer | React.js | Next.js | Node.js | TypeScript

Nallasopara East, Mumbai | sonalsinghraj123@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on experience building responsive web applications using React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and SQL. Experienced in Shopify app development, booking systems, REST APIs, OpenAI API integration, webhooks, calendar scheduling, and dynamic PDF generation. Focused on clean, reusable code, maintainable architecture, and reliable product features.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, MUI

Backend: Node.js, Express.js, REST APIs, Webhooks, OpenAI API Integration

Database: MongoDB, SQL

Platforms: Shopify App Development

Tools: Git, Postman, Vercel, Render

PROFESSIONAL EXPERIENCE

SlotMate (Shopify Booking App Plugin) - Digitrix Agency, Vasai, Maharashtra | May 2026 - Present

- Building a Shopify booking app plugin using React.js and Node.js, enabling merchants to add end-to-end appointment and slot booking to their online stores.
- Developed merchant functionality to convert existing store products into bookable services or create standalone services directly.
- Built the customer-facing storefront booking flow covering service selection, date and slot availability, and booking confirmation.
- Designed core booking-engine logic for service configuration and availability management, integrated with the Shopify storefront.

Ezhog (AI Editor) - Digitrix Agency, Vasai, Maharashtra | Mar 2026 - Apr 2026

- Built an AI-powered writing editor using Next.js and Node.js, integrating OpenAI through webhooks.
- Developed a context-aware suggestion engine that generates relevant content from the article title and most recently written sentence.
- Implemented automatic citation attachment alongside AI-generated suggestions for academic and research writing use cases.
- Handled asynchronous OpenAI webhook responses to keep the editor responsive during content generation.

DulyPlan - Digitrix Agency, Vasai, Maharashtra | Aug 2025 - Feb 2026

- Built a drag-and-drop calendar scheduler using React DnD with multiple views and timezone-based scheduling.
- Developed event grouping, Post Details Sidebar, and detailed post-rendering logic for scheduled social posts.
- Implemented profile, organization, and social media account management flows using modal-based UI.
- Refactored reusable UI components and optimized performance for large scheduling datasets.

CreateReceipt - Digitrix Agency, Vasai, Maharashtra | Jun 2025 - Jul 2025

- Developed a receipt generator using React with reusable UI components and consistent form design.
- Implemented dynamic PDF generation using HTML-to-PDF conversion with custom styling and backend API integration.
- Refactored form and input logic into reusable components, improving maintainability and user experience.

PROJECTS

Stack Overflow Clone - Full-stack Q&A platform inspired by Stack Overflow with user authentication, question posting, answers, voting, and tagging using React, Node.js, Express, and MongoDB.

2D RPG Game - Legend of Zelda Inspired - Final year project built with Python featuring character movement, enemy AI, collision detection, and level progression mechanics.
